PROFILE SUMMARY

A B.Tech Computer Engineering graduate seeking challenging roles in software development and cybersecurity to utilize technical skills and contribute to meaningful projects. Strong foundation in programming, cybersecurity. Experienced in, penetration testing, and network analysis. Skilled in ethical hacking and secure code practices.

EDUCATION

- B. Tech Computer Engineering with Honours In Cyber Security And Forensics in 2026 from K J Somaiya School of Engineering with CGPA 8.8
- Diploma in Computer Engineering in 2023 from S.H Jondhale Polytechnic with 85.54%
- 10th class from Vidya Niketan School, 2020 with 86.20%.

TECHNICAL SKILLS

- Hands-on experience with cybersecurity tools like Bettercap, Nmap, and Wireshark
- Skilled in ethical hacking, reconnaissance, and secure coding practices
- Strong understanding of penetration testing and vulnerability assessment techniques
- Proficient in Java and SQL
- Familiar with software development principles and bug hunting methodologies
- Competent in network security, system analysis, and troubleshooting

ADDITIONAL SKILLS

- Penetration Testing
- Vulnerability Assessment
- Ethical Hacking
- App Development

OTHER DETAILS

Internship:

Acmegrade Internship (May 2024 – July 2024)

- Worked on network security and reconnaissance
- Simulated MITM attacks and performed vulnerability analysis
- Tools used: Bettercap, Nmap, Wireshark

Corizo Internship (Sep 2024 – Nov 2024)

- Performed penetration testing on ColdBox framework
- Identified vulnerabilities: SQL Injection, XSS
- Bug hunting on public bounty platforms

Edunet Foundation Internship (Jan 2025 – Feb 2025)

- Independently developed a secure steganography project under mentorship
- Implemented LSB-based image steganography combined with encryption for secure data hiding
- Developed Python and Android applications using OpenCV, NumPy, Pillow, and Java
- Demonstrated end-to-end encoding and decoding of messages with minimal image distortion

EcoTech Services Internship (Sep 2025 – Oct 2025)

- Gained expertise in network reconnaissance, vulnerability scanning, and penetration testing using tools like Nmap, Wireshark, Nessus, Burp Suite, and Metasploit
- Performed system exploitation, password security audits, and web application testing (SQL Injection, XSS, CSRF, authentication flaws)
- Delivered a comprehensive penetration testing project with professional reporting, remediation recommendations.

Projects:

- **NeuroAI Mental Health App:** AI chatbot with sentiment analysis, multimodal (text/speech) distress detection, and continuous mood tracking
- **Blood Donation (Life Drop) App:** App to manage blood donor data, alerts, and schedules
- **E-waste Management (Renewit) App:** Helps users safely dispose of e-waste
- **Bus Ticket Booking System:** Admin/User roles for ticketing

Publications & Others:

Extra Courses / Certifications:

- Ethical Hacking
- Course in Information Technology
- Google Cybersecurity
- Cybersecurity Fundamentals
- Cybersecurity Essentials
